The table above outlines returns as at 30 April 2018 to shareholders of the Companies. The returns are net of fees. The performance table shows the returns based on an initial investment worth £10,000. The returns are split into the current value of the shares, based on the month end Net Asset Value, and the value of the dividends received since the shares were allotted, to give a total return. The percentage gain is shown including and excluding the tax relief available at the time of investing. The C Shares (April 2006 allotment) were converted into Ordinary Shares on 8 October 2008 - each C Share was converted into 1.23935 Ordinary Shares.

There were multiple allotments for the launch of the Ordinary Shares and the launch of the C-shares, all at 100p. Investors who invested in either launch benefitted from 40% tax relief, opposed to the current 30% that was introduced in 2007.
