HARGREAVE HALE AIM VCT

All returns data is based on the 31 July 2020 NAV of 67.47 pence per share. The sale price achieved in an open market may be lower than the published net asset value of the shares. The performance data published below does not allow for any discount between the sale price and the published net asset value per share. Therefore, the achieved return may be lower than described below.

Investors should note that past performance is not a reliable indicator of future results. Investments in AIM VCTs should be regarded as high risk as they invest in small companies with shares that are highly illiquid and can be hard to sell. They are only suitable for UK resident tax payers who can tolerate higher risk and have a time horizon of greater than five years. Please refer to the Risks section on page 2 of the factsheet for more information. Before investing please read the prospectus and if necessary, seek professional advice.

Returns by allotment

Allotment	Issue Price	Dividends Paid	Returns on £10,000 Investment			% Gain
